Which one is the loser?
Which one is the faker?
Drown again,
it's part of the act so don't hold me back.
I'm sick, and I'm tired of throwing the anchor down,
but it'll keep us all on track.

We either do this now,
or we don't.
We need to do this right now,
or we won't.
you came a long way with crutches to save yourself.
I know, it's part of the act.
Bullshit, try again.
Once you earn some credit you'll spend it, too.
No big surprise again.

We either do this now,
or we don't.
We need to do this right now,
or we won't.

No time left for anyone.
