

## Swellers, The "Warming Up"

Visit "[Warming Up](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Every time I cross the line  
It's dependency every second you're asleep  
This bitter night  
It's just a dream so I'll sleep it off  
Will I wake up if I sleep it off?

I wanted to see it coming true  
I wanted to see it

Every day I find a way to make you wait for me  
It feels better in the heat  
You said just go inside  
It's good to think while you're warming up  
I'll still be here when you're warm enough

I wanted to see it coming true  
And I wanted to see things like you do  
I wanted to see it coming true  
Cuz I'll never be me without you

You're good for me, yeah, You're good for me
