"U Got The Power"

Visit "[U Got The Power](#)" on MotoLyrics.com

If you've got the power I've got the feeling
Big drums hearts worth stealing
Silver and Gold Souls of the mountains
Run aground in cities and towns when
Life is a heart that won't stop beating
Boom boom gimme a reason
We jump the fires for kicks and for feelings,
It's all we've got when...

All things are going against you,
We'll fight them out in the avenues
All things are going against you.
Oo oo oo oo...
When all things are coming to get you
We'll fight them out in the avenues
All things are coming to get you
Oo oo oo oo...

We come around to push push electric,
New kids already connected
Into the light and out of the stillness
In our times directions are endless
Show me the signs and I'll show you kingdoms
Boom boom gimme a reason
We jump the fires for kicks and for feelings
It's all we've got when...

All things are going against you,
We'll fight them out in the avenues
All things are going against you.
Oo oo oo oo...
When all things are coming to get you
We'll fight them out in the avenues
All things are coming to get you
Oo oo oo oo...

If you've got the power I've got the feeling
Big drums hearts worth stealing
Silver and Gold Souls of the mountains
Run aground in cities and towns when
Life is a heart that won't stop beating

Boom boom gimme a reason
We jump the fires for kicks and for feelings,
It's all we've got when...

All things are going against you,
We'll fight them out in the avenues
All things are going against you.
Oo oo oo oo...
When all things are coming to get you
We'll fight them out in the avenues
All things are coming to get you
Oo oo oo oo...

When I see the light coming from your eyes,
I feel so paralyzed
