Bound for the black country  
as the light recedes behind  
Upon the white odonatar  
Witch's vision as their guide

Be wary and keep watch tonight  
Make sure your weapon's at hand  
Here in the land where shines no light  
death can strike you where you stand

There in the ruins  
borne of darkness  
Approaching the altar  
as the arrows begin to fly

Beware the tribes of night  
They take no one alive

So stay wary and keep watch tonight  
Make sure your weapon's at hand  
Here in the land where shines no light  
death can strike you where you stand
