"Never Alone"

Lay your head
Down to bed
Let your slumber sweep your cares away
In your dreams
Chase moonbeams
All the way across the Milky Way

And as you rest
In the nest
That we've made for you
We'll caress
And keep you blessed
Never alone for the whole night through

Go to sleep
Don't your weep
Tomorrow's gonna be
Tomorrow's gonna be
Tomorrow's gonna be a brand-new day

And as you rest
In the nest
That we've made for you
We'll caress
And keep you blessed
Never alone for the whole night through

Go to sleep
Don't you weep
Tomorrow's gonna be
Tomorrow's gonna be
Tomorrow's gonna be a brand-new day
