Now, you say you are my friend
And you know I'll last to the end
Everywhere, every place I go
People ask if I don't know:
You're no good, bad mind grudgeful
You're no good, bad mind grudgeful

Say you trying to see me go down
But you know I'll forever wear a crown
What kind of friend you are
Trying to see me go down?
You're no good, bad mind grudgeful
You're no good, bad mind grudgeful

Say you trying to see me go down
You're no good, bad mind grudgeful
You're no good, bad mind grudgeful
You're no good, bad mind grudgeful...
