"Let It Heal"

You have a lovely heart,
Don't want to pick it apart
Piece by piece
to let it heal
But time goes by
I'm not reading this sign
The apple fell not far from the tree
I got no backup plan
on me a closer despair
I got simple needs
Let it heal!

I'm heading for a distant sun
Evening air fills my lungs
I'm wondering will you be there
Nice and cold, it's time to rest
It's nice and cold, I couldn't care less

In the galaxies
A simple hole to breath
Leave me with the dreams
Let it heal
In the galaxies
A simple hole to breath
Leave me with the dreams
Let it heal
And I won't let a single doubt
Don't try to figure it out
TPut my mind at ease
'Til it's time to leave

And I promise
I leave no traces
I promise
I leave no traces

I'm heading for a distant sun
Evening air fills my lungs
I'm wondering will you be there
Nice and cold, it's time to rest
It's nice and cold, I couldn't care less
