I reached out to hold your handle  
I had great plans  
But things were not quite right  
The day turned into a hazy night

Many times I try to hold back feelings  
I get at night  
Bad problems no one agrees  
and filthy dogs attract many flea

I need a shelter for our love  
Don't want no blood on your boyfriends glove  
My eyes are on the price  
Don't hesitate and be mine

Tonight

No I could never see fall  
No I could never see fall  
No I could never see fall  
No I could never see fall
