Every time I close my eyes
Every time the lights go out
You're here
You look so real

Like a vision in the dark
Like an angel in the night
You fly
Each dawn you die

Because I'm dreaming of you
All through the night
Until the morning sun shines

Every night
You're close to me
Every night
You call my name
And then you fade away

Because I'm dreaming of you
All through the night
Until the morning sun shines

Because I'm dreaming of you
Longing for you
Until the morning sun shines
