"Speed of Light"

Stand up, face the reality
Our time is running out
We are bound to lose
If we don't fly away

Now and forever we'll chase the sun
Until we're falling apart
We'll fly so high and travel so far
We'll reach the brightest star
Now and forever we'll lead the way
This is the dawn of the age
We'll find a place into the sky
We'll reach the speed of light

Hold on, try to keep the faith
We are not alone
We are the chosen ones
To make a brand new start
