Lucky you look down do you notice me
Do you remember, the way it used to be
Some summer, much younger
Way over the under pass
I thought those days would last

I'll travel time, flashback and make you mine, before
your star shined

I'll go back and find you and somehow remind you
The way that we were in the days far behind you
A wrinkle in time way back when you were mine

Throwing wishes in well, no parachute
You were half way hot and I was kinda cute
Together forever till time came and severed
What ever we had then is coming round again

Stone age 2nd round, Big Ben falling down, Model T
turnaround, back in time
Long lost looking glass, afghan covered past, HG
wouldn't last, back in time

I'll travel time, flashback and make you mine, before
your star shined

I'll go back and find you and somehow remind you
The way that we were in the days far behind you
A wrinkle in time way back when you were mine

Stone age 2nd round, Big Ben falling down, Model T
turnaround, back in time
Long lost looking glass, afghan covered past, HG
wouldn't last, back in time
Concrete buried deep, cobblestone back street,
quantum physic leap, back in time
Crash land planet ape, rewind, great escape, I've got
shotgun, back in time

I'll travel time, flashback and make you mine, before
your star shined

And I rode the bench on life's sideline, count down 3, 2,
1

I'll go back and find you and somehow remind you
The way that we were in the days far behind you
A wrinkle in time way back when you were mine

I'll go back and find you and somehow remind you
The way that we were in the days far behind you
A wrinkle in time way back when you were mine
