## "Young Minds Built On Mechanical Designs"

Visit "[Young Minds Built On Mechanical Designs](#)" on MotoLyrics.com

i feel the cold run up my back  
this can't be happening  
please take me away  
to another place  
put me on display  
when will this blood stained curtain be pulled

our blind eyes don't see the signs  
young minds build on me mechanical design  
will the hate stop in time  
or do we just live to die

you are controlled by what you can't see

it makes life nothing  
nothing but a show  
built to burn  
and take you down too  
when will this blood stained curtain be pulled

raise the curtain  
lets get this done with  
play out your life  
along the preset course  
follow the rest  
also do as your controlled
