Boys are Stupid
Girls are icky
things we used to say
passin love notes
check box yes no
silly games we play
whatever happened to
being with somebody who
wanted nothin else but you?
guess i just remember
august thru december
that was the first
before lovin hurt
take me back..

Kiss me like the first time you kissed a girl
rule me like when ali shook up the world
I know i can't turn the clock back
I just wanna feel that
first time love, love, love..
first time love, love, love..
first time love, love, love..
first time love..love...

Damn, I hate you
ooh, I love you
back and forth we go
you're my best friend
can i trust you?
My heart lost control..
Whatever happened to
"I can't live without you,
there's nothin' that we can't work through."?
maybe its a dream
cuz things aint what they seem
that was at first
before lovin hurt
take me back..

Hold me like a newborn two seconds old
treat me like a mother treats a kid with a cold

I know i cant turn the clock back
I just wanna feel that
first time love, love, love..
first time love, love, love..
first time love, love, love..
first time love..

There's nothing better than
feeling like I'm the only one that matters to you
I'm only okay when
I'm all about you
and you're all about me too
so what's it gonna take for us
to travel back in time
to the day that we first met..
let's be the love that we havent been yet

Treat me like the first crib you ever bought
hug me like a daddy hugs a kid that was lost
I know i cant turn the clock back
I just wanna feel that
first time love, love, love..
(I want that first time,,)
first time love, love, love..
(gimme that first time..)
first time love, love, love..
first time love..

love, love, love...
love, love, love
love, love...

Boys are stupid
Girls are icky..
