Joey Tang/Alvin Leong

I saw a picture of a small girl
Crying and living in a lost world
The men fight for dear God
She don't care cause there ain't nothing left to share

I'd watched TV about a sick girl
She was only nine but she'll be gone soon
When and where she's going God will know
She doesn't want the sun to go

CHORUS:

Don't you know that we care
Keep the faith and hope is here
Deep in my heart I ask myself
Do we really really care

I read the paper of a coloured boy
He was starving so we're the lone vultures
Why so full of sorrow no tomorrow
There's no rainbow
Will he ever know?

CHORUS

Don't you know that we pray
For you to see the light of day
For you to bring back the look of love
Words of wisdom
Is it enough
