To Tsz Chi/Alvin Leong
You told me one misty day
(That) you'll never go away
The look in your eyes
I'm so afraid
Deep in a spell
Feels like a spinning carousel
Are they just kisses in the wind
One day in the morning
Rain you came back (to) ease my pain
Will our hearts ever be same?
Make believing there were no broken promises
But they've just kisses in the wind
CHORUS
And the sun won't ever shine
I guess it don't mind
Now that you're gone
But I will always love you
Who'll stop the rain
Is it me to blame
Broken records and picture frames
The sun setting to the west
(I'm) feeling the emptiness
Or are you saving it all the best
Pour my heart
Then say we should be (far) apart
And they're just kisses in the wind
CHORUS
The evening breeze is here
Say good-bye
(I) don't wanna cry
One last kiss my love will never die
I may be a fool
My neverending love for you to you
It's just kisses in the wind
