Nobody came to save me
Who came to save you,
Something is weighing heavy on my mine,
And it's all about you, you. . .
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
Someone is gunnin' for you.
And they'll stop at nothing.
It just might be a part in a movie,
And it could be the real thing too.
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
I fear for your future, I fear for your life.
It's too late to cry,
Move your sorry butt aside,
I don't care what you say,
Cause your truths are nothing but lies.
I see the time coming soon,

To cross you off my list,

I'll drink to the good time we had

And send you off with a kiss.

I fear for your future, I fear for your life.

I fear for your future, I fear for your life.

I fear for your future, I fear for your life.

I fear for your future, I fear for your life
