o restless are we  
Tasteless jury to be  
Go and wade with the bee  
Sift us of our eternity  
Hare on the jumping wind  
Bare is devouring again  
Threw my lips in the jar  
Blue, my mind out of the car

Words said-sad-sate-say it again  
(With no meaning)  
Minds gave-gave-give-green bean sea  
(With no meaning)  
With mold, dead foil of the teeth  
(With no meaning)  
I'm here, justice do it all again

Is this our society?  
Absolute power corrupted absolutely

Is this the time?  
Does this make sense?  
Words said then say it again  
Am I the only one who'll ever understand?

And make a stand
