Lookin raw beautiful, a blue Ruger, who you lookin at?

600 whale, steel color, Brazil love us

Y'all niggaz is fake - all y'all do is steal from us

Remember this line, I'm that nigga word to my mother

Slap one of y'all fake ass niggaz

Reefer from Egypt daddy we rock magnums

All big niggaz heavy on the wrist play diss niggaz

Ghost story blow 'em, RZA throw the fork through 'em
Me, Wonder Woman cousin, jewelried out, talk to him
Hammers that bust endlessness, cover terrorism what?
Slide in the 7, measure the whips

[Chorus: Wu-Tang Clan] + (Flavor Flav)

[Masta Killa]

I'm a dollar and a dream from seein a brick

In grimy hallways, slingin nicks and treys

When it's on then it's on and poppin, shots lickin

I'm spittin this shit for the hood, glock clickin

Tension in the street, we stressed, still wanna eat

I walk through the valley of death, the hotstepper

Holdin red pepper, everybody on reach

I need a beat to expand, the mind guide the hand

Pen stroke, excellent quotes of literature

Nights over Egypt, black as Arabia

Gundeliro(?) Self I savior, I need the (uh)

[Chorus: Wu-Tang Clan] + (Flavor Flav)

Soul power! (You know how we do!)

Soul power! (For you and your crew!)

[Ghostface Killah]

Aiyyo, aiyyo

Aiyyo I got the whip smellin like lemon

Roger Clemens jerseys the man blew seven cold
coolies in the Worthy and

I crush those rappers, keep the toast near the rad-iator

We like our guns warm, it's easier to make the papers

Stayed off, the cape came off, Ghost G'd off

The track's like doin six months and I'ma beat off

At the airport attention always flow in my direction like

You let the best then sparkle his perfection and

Bitches be askin them, Ghost you got so much shit

You need to cash in, bracelets matchin 'em

[U-God]

Yo, yo

Line Cadillacs to blocks, Richard Pryor, Redd Foxx

Jukebox records, flatfooted cops

Get automatic systematic jumpin in your socks

Mama's apple pie in the park hopscotch

Reunited on the radio, Wu-Tang superb

In the sprinklers girls double-dutchin on the curb

Sinatra, the pop the Jackson 5 recordings

Uptown Saturday, "Cotton Came to Harlem"

Ringmaster circus was, Bailey and Barnum

Crack a Coca-Cola, summer heat was my boredom

Dr. J before Jordan, Al Green on the organ

When Rerun did the dance, the whole world saw him

The blackout fears, Foxy Brown, Pam Grier

Ford motor gear, your life and times queer

"Smokey the Bear", Burt Reynolds gray hair

Throw 'em some gems, throw up your fists and say
yeah, it's

[Chorus: Wu-Tang Clan] + (Flavor Flav)

Soul power! (Two thousand and two!)

Soul power! (You know how we do!)

Soul power! (For you and your crew!)

Soul power! (Representin Wu!)

Soul power! (You know how we do!)

Soul power! (Two thousand and two!)

Soul power! (For you and your crew!)

Soul power! (Representin Wu!)
