Flags at half-mast
In honor of our demise
Can you get past
The pain behind your eyes
I feel the world revolve about me
I know the world goes on without me

Hearts at half-mast
Can we yet survive
We the few, the broken
The painfully alive
I feel the world revolve around me
I know the world goes on without me
What is this sensation
Pulls from the farthest corners
Who are you to seem the last good thing on earth

Time has flown past
Will we watch it go
Fear the fall occurring
Should we never know
Feel the power to restore you
And watch the world unfold before you
What is this sensation
Pulls from the farthest corners
Who are you to seem the last good thing on earth
What is this connection
That I cannot explain
Who are you to seem the last good thing on earth

I feel the world revolve around me
I've watched my life go on without me
What is this sensation
Pulls from the farthest corners
Who are you to seem the last good thing on earth
What is this connection
That I cannot explain
Who are you to seem the last good thing on earth
