"In The Morning"

Visit "[In The Morning](#)" on MotoLyrics.com

Where'd the time go, we're almost done
But the boy had just begun
And tell me boy why're you havin' no fun
Then she dropped her love on my tounge

Call me in the morning
I said call me in the morning

Suppose they can live won't make no sound
Till the morning explodes on you world

I won't forget, I'll remember some how
And do you feel the same as me now

Call me in the morning
I said call me in the morning
I can love you in the morning
I said I can love you in the morning

I said so glad to meet you
I could not forget you if I tried
Those lies will suit you
Then again the summer's rays never lie, to me

Tell me boy why're you havin' no fun
Then she dropped her love on my tounge

I said call me in the morning
I can love you in the morning
Well I can love you in the morning
I said I can love you in the morning
I said I can love you in the morning
Said I can love you in the morning
Said I can love you in the morning
Said I can love you in the morning
I can love you in the morning
And I will miss you in the morning
I can love you in the morning
I can love you in the morning
