One... (no!)... Two... Three (no!) One, Two, Three (ow!)

Prozac - you know I'm not crazy son, take this tip  
Hold this cigarette over your mouth 'cause you know  
they can read your lips  
'Cause they need to control your environment  
Surveillance - a requirement  
That's why they put those I-Spy cameras in fire  
hydrants  
You know they got x-ray satellites to read your mail  
before it's opened  
They got this secret base beneath the ocean  
Testing out explosions of nuclear bombs down in the  
Oakland  
That's why all those crackheads are smokin'  
It's remote-controlled emotions triggered by cops with  
laptops  
A chip inside your skin implanted with your Tetanus  
shot  
Long before you could walk, they had you locked and  
barcoded  
By race, color and class, your life is downloaded  
They send subliminals with minimal efforts so you're  
unable  
To control your thought process ever since they  
installed your cable  
Reason for your behavior - DirecTV is the ringer  
Why else would intelligent people tune in to Jerry  
Springer?  
It's all lies, from baseball, to apple pies, to mom  
Waco, Texas, Heaven's Gate, the Oklahoma bomb  
The Desert Storm Syndrome, experiment that went  
wrong  
Inject our own 'cause they probably won't come home  
anyway  
The Vietnam conflict was a mere experiment  
Soldiers came back from the war, couldn't tell you  
where they want  
And commandoes that don't come back could use to  
their advantage  
'Cause they're the guinea pigs to repopulate Atlantis

[Chorus - scratched]

"FBI spying on us through the radio antennas"

"Cause there's nowhere to hide unless you move to  
outer space"

(x4)

Some say that I hallucinate these men in black suits

But they don't want to know the truth about the

Freemasons' pursuits

Illuminati's selling human bodies to the Martians

They faked Bruce Lee's death so he can train alien

Spartans

When you drink a 40 ounce brew, all you really do

Is ingest enzymes the government designed to lower  
your IQ

Pass genetic flaws, although the combination varies

And this is why the cheapest liquor tastes just like fruits  
and berries

That's 'cause they wanna kill all the Blacks, so they  
invented gangsta rap

Lace tracks with evil thoughts of selling crack for  
Cadillacs and CREAM

Target the pro-ghetto teen who reads those rap  
magazines

Keep him broke by advertising hundred-dollar jeans

[Chorus x2]

Roswell - rock, rock on

The grassy knoll - rock, rock on

Pyramids on the moon - rock, rock on

Stonehenge - rock, rock on

My man Art Bell - where you at?

My man William Cooper - where ya at?

My man Noam Chomsky - where ya at?

Illuminati - where ya at?

First they tell you that it's good to put that Vitamin C  
inside your diet

Shape tablets like cartoons so the kids all wanna try it

You wouldn't expect the long-term effects - it comes in  
stages

It causes [?] Syndrome in the heavy user's babies

They killed Kennedy, Biggie, Tupac and Abe Lincoln

They planned the Titanic's sinkin'

They killed Marvin Gaye for thinkin'

They killed Versace - canceled Joanie Loves Chaci

Killed Princess Di and framed the papparazzi

It's all an evil plan written by the Illuminati

Long before Adolf Hitler ever changed his name to

Liberace  
The details are spotty about him and John Gotti  
They've got a home for clones in the center of the  
Mojave  
How do we cook with radiation? Build space stations?  
We got that information from secret alien nations  
It's amazing they're so brazen with the equation for  
restoration  
Margaret Thatcher's looked the same since the King  
assassination  
I'm basing information on data that was decoded  
From transmitters destroyed when the Hindenberg  
exploded  
They're paying people I know to get close to plant the  
bugs  
Putting drugs in my tap water, thinning my blood  
Just 'cause I panic, they'll label me a paranoid  
schizophrenic  
My rhyme's authentic  
Just like that giant asteroid that's headed straight for  
our planet  
They call me a manic  
Depressed suicidal nutcase to keep it candid  
'Cause they know that I know the final hour's near  
Any minute now the coming Armageddon's here  
Any moment now the coming Armageddon's here  
Any second now the coming Armageddon's here

[Chorus x2]
