[1st Verse]

I know it's late but baby my love won't wait I've gotta
get with you
Got to be next to you
Right now baby
So don't tell me your tired I'll wake you up with sweet
desire
Talking just for you I need to see you

[Chorus]

Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to
mine
Can I, can I, can I come over tonight

[2nd Verse]

We could dance slow
To the slow songs on the radio
We could be staying up until the sun comes up
All night baby
So don't tell me your tired
Cause I can't put out this fire I don't want to sleep I want
you beside me

[Chorus]

Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to
mine
Can I, can I, can I come over tonight

[Bridge]

We can talk till the morning I can love you all night
I don't care what we do
As long as I can spend the night with you, with you

[Chorus]

Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to

mine
Can I, can I, can I come over tonight
Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to
mine
Can I, can I, can I come over tonight

[Chorus]

Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to
mine
Can I, can I, can I come over tonight
Can I come over and hold you all through the night
Can I come over and show you what I got on my mind
Can we get closer and closer till I feel your heart next to
mine
Can I, can I, can I
