### "In Heaven"

When I think of all the moments, full of love and  
tenderness  
Shivers running down my spine, feeling your caress  
And I linger in the memory of a love that's so divine  
You're everything that I desire, I wanna spend my time

Chorus :

In heaven with you, in heaven so true  
From the very start and heart to heart, a love I never  
knew  
In heaven with you, in heaven so true  
How I wanna see us walking hand in hand  
(You and me in heaven)

Every hour, every minute I pretend that you are near  
With the love that you're givin', it's almost like you're  
here  
From a distance I can touch you, the wonder that we  
share  
I want you here to stay with me, yes I'll be there

[Chorus] x 4
