"So In Love"

Visit "[So In Love](#)" on MotoLyrics.com

All alone on a nighttrain
Like a stranger on a sinking ship
Will I ever know the secret to your heart

Do you care, am I dreaming
When I reach for you is that burning flame
Just inside of me are we a world apart

Chorus :
I'm so in love, so in love with you
I'm so in love, if you only knew
I'm so in love, I'll never be the same
Cause I'm so in love, I'm so in love with you

Should I dare to entice you
Will a touch of your fingertips, take my heart again
You know it's been so long

Is it wrong how I want you
When it feels so right being close and
Who is to tell me now that all's been said and done

[Chorus]

You, you never understood
And you were gone when our love felt so good
You unchain my heart and set me free
Or tell me that you're gonna be with me

[Chorus] x 3
