I hear a voice say don't be so blind

It's telling me all these things

That you would probably hide

Am I your one and only desire?

Am I the reason you breathe

Or am I the reason you cry

Always x7

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

(Done with you)

I feel like you don't want me around

I guess I'll pack all my things I guess I'll see you around

It's all been bottled up until now

As I walk out your door, all I can hear is the sound of

Always x7

I just can't live without you

I love you, I hate you, I can't get around you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you

I wrapped my head around your heart

Why would you tear my world apart?

Always x4

I see the blood all over your hands

Does it make you feel, more like a man?

Was it all just a part of your plan?

The pistol's shaking in my hands and all I hear is the  
sound of

I love you, I hate you, I can't live without you

I breathe you, I taste you, I can't live without you

I just can't take anymore, this life of solitude

I guess that I'm out the door and now I'm done with you

I love you, I hate you, I can't live without you

I love you, I hate you, I can't live without you

I just can't take anymore, this life of solitude

I pick myself off the floor and now I'm done with you

Always x3
