Here comes the Ax  
Here comes the Smasher  
The Demolition, Walking disaster  
Pain and destruction are our middle names

Search and destroy you  
Run and we'll find you  
There's no place to hide  
The Demos will get you  
Pain and destruction, are our middle names

The Demolition  
You better state your act of contrition

(Guitar break)

The Demolition  
You better state your act of contrition

Here comes the Ax  
And here comes the Smasher  
The Demolition  
Walking disaster

Search and destroy you  
Run and we'll find you  
There's no place to hide  
The Demos wil get you!!

Demolition, Demolition (repeat a few times till fades)
