"Comfort And Love"

It filled my soul like a beam of light
I was left alone, without a hope
And it's only then,
That my eyes were open wide
To see the crowd of comfort and love

I felt separated like I needed to let it go
Looked at my past, it's a rugged world
It became so hard to rest in you
Yet i felt you near
With comfort and love

The tears I cried, the sleepless nights
The uncertain days, counted history
You're my joy, my prize, my pride
In your love, I am complete
Covered in love,
Comfort and love
