What would it be, if I had to live all alone?
Standing the fears, doing it all on my own
Facing this life, living the days without you
What would it be if you didn't watch over me?

You're never sleeping when i stand and when am
falling
When I go you already know am going
I want to do all my life's journey with you
I want to go with you

Keep on holding, when am falling
Keep on calling when I am lost
Help me stand up, keep on moving
When I go, I want to go with you

Where would I be, if I hadn't lived all this long?
What would I be, if you hadn't planned for my life?
What would it be, if you hadn't called me your own?
How would I feel, if all my sin was still on me?

You're never sleeping when i stand and when am
falling
When I go you already know am going
I want to do all my life's journey with you
I want to go with you

Keep on holding, when am falling
Keep on calling when I am lost
Help me stand up, keep on moving
When I go, I want to go with you
