"We Belong"

Visit "[We Belong](#)" on MotoLyrics.com

Many miles with whispers,
A shorter time to live
A song of love together,
We can sing it with one voice

We're alive, we are free
We belong, we are one
Oh how good to be one voice

We're never separated,
By the journeys in our lives
Our hearts are bound together,
No one is alone

We're alive, we are free
We belong, we are one
Oh how good to be one voice

Half a mile we may fail,
Or even fall apart
But inside us the Love shared
Was never meant to die

We're alive, we are free
We belong, we are one
Oh how good to be one voice

We're meant for justice and the truth we believe.
The love and the mercy, we ought to belong

We're alive, we are free
We belong, we are one
Oh how good to be one voice
