How can I make it  
To live here without you  
It's living here with no air  
The water is so deep  
The rain is not going to stop  
The sun is not showing up, Hey!  
Can you hear me calling you, Hey!  
Let me hear you calling me, Hey!

How can I live without you?  
Dream without you,  
Breath without you  
I can't be without you

Trying to make it through  
Living your love in me  
Making the best of me  
Loving you all my days  
Taking all that I should  
Living and loving you  
Can you hear me calling you, Hey!  
Let me hear you calling me, Hey!

How can I live without you?  
Dream without you, Breath without you  
I can't be without you
