"Serve And Defy"

Visit "[Serve And Defy](#)" on MotoLyrics.com

Serve and defy.. try to give myself in these words, try to express self in song, try to clarify all the reasons why. try to clarify why... what i said, what i said, why. because i know that i know i, am not body. try to give myself in these words, will you open up your heart to these words, try to clarify, try to amplify, i got to clarify why.. what i said, why i said, why. because i know that i know i, am not body. don't give me your costume. externals will suffocate me. don't give me your costume. i'll try to reach inside. i got to clarify, i got to amplify all the reasons why i choose to serve and defy, i got to clarify, i got to amplify, why... what i said, why i said, why, because i know that i know i, am not body, may he shine through these words
