I dream of a land  
Of far away places  
Many miles from here  
I dream of a love  
With curious faces  
And I shed a tear  
I dream of spending time with her in her land down  
south  
I dream to tell her of my days but I can not talk by  
mouth  
My pencil is my only tool to manifest my love  
So I write this letter  
But I feel that it's just not good enough, so

I dream of your land  
Of far away places  
Oh, how the sun must shine  
I dream of your land  
With curious faces  
Where you spend your time  
I dream of spending time with her in her land down  
south  
I dream to tell her of my days but I can not talk by  
mouth  
My pencil is my only tool to manifest my love  
So I write this letter  
But I feel that it's just not good enough, so

I dream of your land  
Of far away places  
Oh, how the sun must shine  
I dream of your land  
With curious faces  
Where you spend your time.
