If you want love to stay  
Don't give all your secrets away  
It's not the fashion  
But hold back your passion

Don't - open your heart, no  
Don't - share all your dreams in one night, no  
Don't - tell the whole story  
Why should you hurry?

You don't want love to leave  
So don't wear your heart on your sleeve  
It's not a crime to  
Give her some time and

Don't - drive her away, no  
Don't - love isn't built in a day, no  
Don't - let it grow stronger  
Feed in the hunger  
Hold back your passion

You're not an open book  
So don't let her take just one look  
Under the cover  
Let her discover

Don't - stop the surprising, no  
Don't - take all the mystery out of it, no  
Don't - put out the fire  
Kill her desire

Don't - open your heart, no  
Don't - share all your dreams in one night, no  
Don't - tell the whole story  
Why should you hurry?

Don't -  
Don't -  
Don't -
