## "Taxi! Taxi!"

The hands on the clock seem to stick to the face  
But the seconds are turning to minutes  
And minutes to days  
I try not to look at the grin on it's face  
But I know that it knows that I gotta get out  
Of this place  
Time to close the day  
Time to lock the door  
time to greet the street  
I'm so happy I'm walking on air  
People staring but I don't care

Taxi, call a taxi, yellow taxi, taxi taxi  
Don't take the subway don't go that way  
'snot a safe way don't go that way  
Gotta cross town don't want trouble  
Got to get there on the double  
She'll be waiting I'll be running  
She'll be thinking I'm not coming

I can't wait to talk to you  
Tell you what I'd like to do  
We'll find a little restaurant  
A little vino for the ambiance  
In the candlelight we're holding hands

Time flies when you really  
Don't want it to  
The waiters are staring at me

But I've only got eyes for you  
Leave us alone we don't wanna go home  
Put your chairs on the tables  
We can let ourselves out when you've gone  
Time to take your home  
Time to say goodnight  
We don't wanna part  
Let's be together tonight  
Let's be together tonight

Taxi, call a taxi, yellow taxi, taxi taxi  
Don't take the subway don't go that way

'snot a safe way we'll go our way  
Gotta cross town back to my place  
Pull the shades down screw the rat race  
We're alone now undercover  
Hang the sign out don't disturb

Now I'm really close to you  
Tell you what I want to do  
I wanna take you to a tropical place  
Beneath the stars I'll see the love in your face  
In the pale moonlight  
We're holding hands  
Following the footprints in the sand  
It's been a hell of a day in the city  
Now it's time to get away
