"Let the Angels Go"

Visit "[Let the Angels Go](#)" on MotoLyrics.com

Where did the angel go? Her wings on my mind.
Heaven could flow this time. All things beautiful... let
the angels go.

Let the angels go
It's blocking the flow
All I've got is time
If you believe

I knew I was high you whisper to me. Time now moves
so slow, your touch a symphony. I knew I was right
when you looked into my eyes. Here I am alone never
should have let you go.

Let the angels go
It's blocking the flow
All I've got is time
If you believe that we can fly
Holding on again

Feeling the sky, and the air moves over my skin. There
you are. I open the door and let you in

Would I go would I fall would I hold on to it all?
Would I stay would I trip would I stumble and then
crawl?
Would I crouch on my feet would I grit my teeth?
Would I ever let you go if I let go of control?
