Plaisir de nirvana

Count the ribbons in the sky
Sadness makes the ribbons fly
Evil grows a drive for tears
Tears are born in states of fear
Damage done I leave behind
Afterlife my state of mind
Dream's a dream a time gone by
I long to live the day I die

Wake up shining
Rise like the sun
Supernature
Forever young
Wake up shining
Mon camarade
Resurrection
Lit de parade

L'envie d'un certain doux venin
L'envie de l'alchimie
Des anges noires des nuits trop blanches
Plaisir de ma magie
L'envie de mort et perfection
L'envie de kabbala
Jolie d'½mon journ½es trop longues
Plaisir de nirvana

Innocent
Gently weep
It's time to end
Your beauty sleep
Breakaway
Have no fear
A brand new day

Don't shed a tear
Wake up shining
Rise like the sun
Supernature
Forever young
Wake up shining
Mon camarade
Resurrection
Lit de parade

Breakdown of the human flesh
Creation of eternal dress
The sea the moon the rising sun
Tonight prepare my wedding gown
Straight before the owl's call
Apocalypse the curtain fall
Treasure is thy honesty
I long to live eternally

Wake up shining
Count the ribbons in the sky
Sadness makes the ribbons fly
Rise like the sun
Evil grows a drive for tears
Tears are born in states of fear
Supernature
Execute manipulate
God won't let his judgement wait
Forever young
Cloud the rain with stains of gold
Blessed be thy eternal soul

Wake up shining
Mon camarade
Resurrection
Lit de parade
Lit de parade
Plaisir de nirvana
Lit de parade
Lit de parade
Plaisir de nirvana
