"The Particle Song"

Visit "[The Particle Song](#)" on MotoLyrics.com

The particle Z
The particle Y
Travel fast in a concrete tube
Underground
Ride mile after mile

The particle Z
The particle Y
Macho men of the molecules
Bound to clash
In maximal style

Very, very small
Not so very tall
Atoms on their round
Are they there at all?

Microscopic size
Microscopic twice
All around the world
Looking for a third

Vacuum where they live
Vacuum where they go
Travel deep inside
Vacuum of the soul

The particle Z
The particle Y
Travel fast in a concrete tube
Underground
Ride mile after mile

The particle Z
The particle Y
Macho men of the molecules
Bound to clash
In maximal style

Einstein on the beach
Science out of reach
Atoms sing along

To Einstein on the beach

For their Nobel Prize
Atoms in disguise
Dressed like electrons
Speak from microphones

Vacuum where they live
Vacuum where they go
Travel deep inside
Vacuum of the soul

The particle Z
The particle Y
Travel fast in a concrete tube
Underground
Ride mile after mile
Bound to clash
In maximal style

Vacuum where they live
Vacuum where they go
Travel deep inside
Vacuum of the soul

The particle Z
The particle Y
Travel fast in a concrete tube
Underground
Ride mile after mile

The particle Z
The particle Y
Macho men of the molecules
Bound to clash
In maximal style

The particle Z
The particle Y
Macho men of the molecules
