In the old man's car  
We could only imagine getting this far  
From the clone of our dreams  
Here we are  
Here we are  
Here we are, ay

And you will always be the most precious part of me

And no matter where you are  
Hush little baby you're going to be a star  
What the world may throw at you  
Hush little lady you're going to go far  
And no matter where you are  
Hush little baby you're going to be a star  
What the world may throw at you  
Ladybirds learn to fly

Your cat green eyes  
My sanctuary  
They mesmerise  
They're my sanctuary

And you will always be the most precious part of me

And no matter where you are  
Hush little baby you're going to be a star  
What the world may throw at you  
Hush little lady you're going to go far  
And no matter where you are  
Hush little lady you're going to be a star  
What the world may throw at you  
Ladybirds learn to fly

And you will always be the most precious part of me

And no matter where you are  
Hush little baby you're going to be a star  
What the world may throw at you  
Hush little lady you're going to go far  
And no matter where you are

Hush little lady you're going to be a star  
What the world may throw at you  
Ladybirds learn to fly

And no matter where you are  
Hush little baby you're going to be a star  
What the world may throw at you  
Ladybirds learn to fly  
Ladybirds learn to fly  
Ladybirds learn to fly  
Ladybirds learn to fly  
Ladybirds learn to fly

I've cried for you  
I'd die for you

Ladybirds learn to fly  
Ladybirds learn to fly  
Ladybirds learn to fly
