Here it goes  
Putting on shows  
Here come the big stars  
With their big black cars  
Strike a good pose  
'cos nobody knows  
Who's in the red dress  
And who does it best, but

Later, back with the crowd  
We are the good stuff and we're  
Moving and grooving round  
Later, down on the ground  
We play the good stuff and we're  
Spinning and spinning round

Keep your pride  
Show your good side  
Pick up a guitar  
And play the lead star  
Sipping champagne  
Jump on a plane  
Do it all again  
'til you meet up with friends, then

Later, back with the crowd  
We are the good stuff and we're  
Moving and grooving round  
Later, down on the ground  
We play the good stuff and we're  
Spinning and spinning round

You stay with the crowd  
They follow the sound  
I think you're going to get much more than you  
bargained for  
And you've been waiting, anticipating  
And here's what for

Lights go down  
All over town

Streets are dead  
It's time to head  
Don't be late  
You're looking so great  
Here comes the sun  
This party's begun, and

Later, back with the crowd  
We are the good stuff and we're  
Moving and grooving round  
Later, down on the ground  
We play the good stuff and we're  
Spinning and spinning, spinning  
Later, back with the crowd  
We are the good stuff  
We are the good stuff  
We are the good stuff  
We are the good stuff  
Later, down on the ground  
We play the good stuff and we're  
Spinning and spinning round
