Verse 1:

So you say things are impossible for you
and life keeps playing its tricks
and giving you blow after blow.

One minute you're up and then the
next you are down,
One day there's a smile
in the midst of a sound there's a frown
But you can make it...

Chorus:

Yes you can, yes you will
you can make it, you can win.
Oh, yes you can, yes you will,
you can make it, you can...
As long as your heart says yes,
always try hard and do your best.
Yes you can, yes you will,
you can make it, you can win.
Yes you can, yes you will
you can make it...

Verse 2:

There is nothing in life that you cannot achieve
No matter how far away it seems
you just keep on, keep on believing

And soon one day, you'll see
you will finally reach your goal
and all that you've worked for
was worth it and more but you
you can make it...

Chorus:

Yes you can, yes you will

you can make it, you can win.
Oh, yes you can, yes you will,
you can make it, you can...
As long as your heart says yes,

always try hard and do your best.

Bridge:

Anything worth having is worth fighting for.

Gotta see yourself fighting through
and all things done.

If you can dream it, you can mean it,
just believe it.

If you can dream it, you can mean it,
just believe...

Believe...

Chorus:

Yes you can, yes you will
you can make it, you can win.

Oh, yes you can, yes you will,
you can make it, you can...

As long as your heart says yes,
always try hard and do your best.

Yes you can yes you will,
you can make it, you can win.

Oh, Yes you can, yes you will,
you can make it, you can make it.

Yes you can, yes you will
you can make it, you can win

yes you can, yes you will,
you can make it,

you... you can win...
