i am afraid
i am afraid
things just ain't the same
devil took an angel away
maybe i am the one to blame
shield on my heart didn't last till my dieing day
someone tell me not to be...

afraid
now that your gone
afraid
to be on my own
i am afraid
i am afraid

drive me to tears than hope
now it's time to let go
do we really want to know
that what we had ain't no more
someone tell me not to be...

afraid
now that your gone
afraid
to be on my own
afraid
now that your gone
afraid
to be on my own

the silence in this room is killing me
i'm terrified there's not much left of me

don't be afraid
don't be afraid
