"All My People"

Visit "[All My People](#)" on MotoLyrics.com

Gotta get this out of you, if you know what love can do,
Why don't you say to the world where your going.

If you know you will be free, will you raise your hands
with me,
Showing how you have the freedom of knowing.

Love so unique, made complete, let the music release
how you feel
Is this real, don't conceal, all you know deep inside of
you.

All my people over here, get your hands up higher,
Over there I wanna see ya, I wanna hear you sing.
All my people in the crowd, gotta check this out,
Bring the bass in loud, now let the party begin.

Do you wanna get with this, coz you know eternal bliss,
There will be music with everyone dancing.

If you just don't wanna hide, get em up from side to
side,
Show everyone who it is you believe in.
