"Suddenly"

you think of me when you smell my perfume
i know what a man wants when i walk in the room
feel sorry for the next girl in your future
i've waited, the time is near
i'm reliving memories in fear
suddenly i fear the future
held my heart, my hand and now i'm dead
17-14-19...gone

17 years and nobody's different
14 days and i can't wait to see you
19 hours suddenly there's a problem
my heart is coated...disconnected
suddenly i fear the future

my conviction is true
i'm madly in love with you
suddenly i now fear the future
can you please do me a favour
and explain to me what i was to you
suddenly i fear the future

held my heart, my hand and now i'm dead
17-19-14...gone
