Love you baby and I always had  
All your foolness ,  
Binding over you

Each every night I'm lying in my bed  
Dreams are used to my head watching , do  
,over you

Well all my friends say I'm push over ,  
Wrapped around your finger treating like a toy  
They're so evil got me on the ,  
But I walk a , just to kiss your lips and  
Hell I loved you baby and I always had  
But all your fool makes me , what's gonna do  
Binding over you

Well all my friends say I'm push over ,  
Wrapped around your finger treating like a toy  
They say ,  
But I walk a , just to kiss your lips and  
Hell I loved you baby and I always had  
But all your fool makes me , what's gonna do  
Binding over you  
what's gonna do  
being so in love with you.
