No mistakes, only choices  
No regrets, only voices  
Let this anthem reach  
To an undead city

Leave your morals at the door  
I don't even know who I am anymore  
Choose your poison, buckle in  
One more shot now let's begin

In the end we're not the same  
You were born to rot  
This has to stop  
In the end we're not the same  
If it's a war you want  
Then it's a war you'll get

[Chorus:]  
I've waited all this time  
Just to realize  
I'm not the man I said I'd be  
I've wasted so much life  
Many sleepless nights  
You've taken everything that's left of me

No mistakes, only choices  
No regrets, only voices  
Let this anthem reach  
To such a fucked up city

If only they could see you now  
I bet the other snakes would all be proud  
You spineless fuck  
If you caught fire  
I wouldn't piss to put you out

If it's a war you want  
Then it's a war you'll get  
If it's a war you want  
Then it's a war you'll get

[Chorus:]

I've waited all this time  
Just to realize  
I'm not the man I said I'd be  
I've wasted so much life  
Many sleepless nights  
You've taken everything that's left of me

No mistakes, only choices  
No regrets, only voices  
Let this anthem reach

No mistakes, only choices  
No regrets, only voices  
Let this anthem reach

We're not the same
