Estuary girl you're the one
You don't belong to the world that I'm from
Your lazy words blow like confetti in the wind
In the wind
Estuary girl you're not a part of my scene
Your feet don't belong near my upholstery
And sometimes I sink when you call me on the phone
On the phone

But if you follow me, I will follow you into the unknown
Like Apollo, like Apollo we'll fly to the moon
Yes if you follow me, I will follow you into the unknown
Like Apollo, like Apollo 13 we'll explode

Sad as a song you're a child in the streets
Your skin don't belong on my designer sheets
In eye-liner you wrote me a note that I'll never read at
all
Estuary girl

But if you follow me, I will follow you into the unknown
Like Apollo, like Apollo we'll fly to the moon
Yes if you follow me, I will follow you into the unknown
Like Apollo, like Apollo 13 we'll explode
Yes if you follow me, I will follow you into the unknown
Oh like Apollo, like Apollo we'll sink like a stone
Oh yes if you follow me, I will follow you into the
unknown
Like Apollo, like Apollo 13 we'll explode
