Tonight we stand side by side,
waiting for our chance to dance,
underneath a star lit sky.
And on this beautiful night,
waiting for our time to shine,
the stars hold us back,
cause they don't want us to see the sun.

And we dance the night away
dancing under this star lit mirror ball
and we're singing this is Love.
And we fall into each others arms
and hold on for dear life because
This is Love.

Aside from all the dancing,
we go and sit down on a comfy couch,
and catch up on all that we've missed out on.
I stare into your eyes,
saying hey dear Ohh how I've missed you so,
and you say Ohh how I've missed you too.

Chorus

(This is Love, This is Love)
(The Love that drives us all)
(The Love that fuels us)
(and we dance, we dance)We Dance!
We dance the night away.

~Andrew Cagle
