MAN UP!

[Verse 1 - Lecrae]

Momma want some Obama in me
 The hood want 'Pac hip-hop wanna see the Common in me
 And since it's a senseless contradiction
 I end up a misfit tryna fit in
 This ends when I stand up
 And see the hands that are standard, holy is the Lamb huh
 Now we holding you to man up
 'Cause we were made in His image start looking at what you came from

[Verse 2 - KB]

Right after Adam every atom in our anatomy's
 Had to make adamant after what Adonai is against
 Let me take you back to the tree in Eden
 Never eat it, you'll see that Eve was deceived
 But Adam is the one who let her eat it
 Instead of leading, no we ain't leading we bump that
 Basically little boys with muscles and a mustache
 The femininity, we need a remedy
 The God-Man a hundred percent masculinity

[Verse 3 - Trip Lee]

Where the men at? Seems like they all lost
 None of them are on the scene, seems like they died off
 They extinct but my dream is to rise up
 We chasin' the prize of the King the divine boss
 But we fell away, now we ungodly
 We lose then we really got the blues like Navi
 I want to celebrate the dudes that's beside me
 Fellas let's elevate, we through with the lobby

[Verse 3 - Tedashii]

They lied, go ahead say boy get your shine on
 And if a sucker try to block you get your nine homes
 That's what I heard you gotta do to be a man now
 Stand up for yourself so I took it in my hands now
 And that's the problem man we busy trying to solve it
 All the while we walking dead, man somebody bring the coffin
 Voice drop, peach fuzz, now you think that you a man 'cause you feelin' yourself?
 You need to man up

[Verse 4 - Sho Baraka]

Yeah, there's many things men is chasin' after

â€œThey got some questions? We got some answersâ€â€

Sex and models and tippin' bottles
Pack a pile of excuses right next to your bottle capsâ€
A Rolodex filled with names that you aim to please
â€œNext to the stack of money buildin' up a heart of greed
â€œIce on his neck, givin' jokers the cold shoulderâ€
You drunk off pride plus you loving the hangover
â€œYou gotta whole lotta stuff that won't amount to gainâ€
Life will never make sense because you never made changeâ€â€

[Verse 5 - PRo]

We got it twisted, sick like a fever
â€œLil' man live to stack dough, Keebler
â€œMan up! Get up out of that treehouse
â€œLeave them cookies alone, it's time to eat meat now
â€œTryna show you a new way to live now
â€œNo charge, you can call it a freestyleâ€
Without Christ you won't know what a man is
You a boy in a man's body like Tom Hanks in Big

â€â€[Verse 6 - Andy Mineo]

Being a man got nothin' to do with age
â€œYou can be a boy till the day you lay in your grave
â€œNone of us behave like the image of who we're madeâ€
'Cause we fallen the ways it's better known as depravedâ€
Running from responsibility really we crave
The easy way out of places that call us to pull our weight
â€œMan they blowing through every day decisions are made
â€œResponding to the call God's giving 'em from the gate

â€â€Man Up!â€

Let the process begin, separate the boys from the menâ€
Man Up!â€

It don't matter how you started, partner, it's about how you endâ€
Man Up!

â€œJesus is the model, follow us we gon' follow himâ€
Man Up!

â€œWe the last of a dying breed, it's time that we â€â€â€

MAN UP!
