(John Sieger)

Honey you sure do it well
But I don't need it done
I know if I did it with you
It'd be a whole lot of fun
I'll send my regrets
But I won't hedge my bets
I found a real true love
Now I don't need it done

Baby you sure look fine
But I don't need it done
So I won't waste your time
Said I better let you run
And I'll just move along
I don't mind wakin' up all alone
I found me one real true love
Now I don't need it done

Chorus:
I don't need it done
I don't need it done
I found a real true love
Now I don't need it done

It's been one long day all right
Still I don't need it done
You say I could stay all night
Until the morning comes
Well, it's not easy but
I've got to give up all you got
I found a real true love
Now I don't need it done

Chorus:
I don't need it done
I don't need it done
I found a real true love Now I don't need it done
