Tell me why it hurts so bad. I just don't understand.
What makes you think I feel so glad.
Just to hold your hand.

You never ever call me on the phone
You're havin' fun and I'm back here alone

Give me more - Give me more - Give me more
Try to understand

Give me more - Give me more - Give me more
Let me be your man

You wanna play around with me
I ain't that kind of guy
I need more than I had before
Now don't you be so shy
What in the world am I supposed to do
I can't hide the love I have for you

Give me more - Give me more - Give me more
Try to understand

Give me more - Give me more - Give me more
Let me be your man
Why don't you give me one more chance
You never tried to find romance
I got a lot of lovin' here for you
you don't believe baby but it's true.

Give me more - Give me more - Give me more
Try to understand

Give me more - Give me more - Give me more
Let me be your man
